ELECTRIC POWERED

Lawn and Garden Program

ENERGYWISESM
Use less. Spend less. Do more.

Maybe it's time to go electric

Gasless, but not gutless. Quiet, but not shy. Advances in battery technology have resulted in more power being packed into your lawn and garden equipment. Maybe it is time to consider upgrading your conventional, gas-burning mower, chainsaw, tiller, or snowblower to electric and receive a 20% incentive. Not to exceed \$1,500 per incentive.

Advantages

- Lower energy costs – changing to electric can cut the operation costs to approximately half the cost of the gas-powered option.
- Less maintenance – no sparkplugs, air filters, fuel filters, or oil change.
- Quieter operation – for example, electric mowers create up to 75 decibels of sound, which is like a washing machine. Gasoline mowers can exceed 95 decibels, which is comparable to a motorcycle on the highway.
- Eco-friendly – no toxic gas emissions from nitrogen oxides, airborne particulates, carbon monoxide, or carbon dioxide.

Follow these easy steps

- Obtain an EnergyWiseSM Lawn and Garden Program application from your participating local utility or visit EnergyWiseNebraska.com.
- Purchase your choice of a new (not used, previously owned or factory reconditioned) battery-powered or corded equipment.
- Chargers and additional battery purchases are available for the incentive at time of initial equipment purchase.
- Complete the application and return it to your local utility with a copy of proof of purchase identifying the equipment and any batteries.

LAWN AND GARDEN PROGRAM

Incentive application must be completed and submitted to your local electric utility along with the proof of purchase. Contact your local utility with any questions.

- 20% incentive on any electric chainsaw, tiller, snow blower, or lawn mower (includes riding, walk behind and robotic).
- Incentive amount is based on purchase price (taxes, delivery/shipping and set up costs are not eligible).
- Chargers and battery purchases are available for the incentive at time of initial equipment purchase.

1. CUSTOMER INFORMATION: Electric Utility: _____

Name: _____ Phone # _____

Address: _____ Account # _____

City & Zip: _____

2. EQUIPMENT INFORMATION:

Brand name: _____ Model # _____

Chainsaw Tiller Snow blower

Lawn mower type: Riding Walk behind Robotic

Price of equipment _____ x 20% incentive = **Total of \$** _____

Not to exceed \$1,500 per incentive
